SUMMARY

Frontend Developer based in Reykjavík with expertise in React, TypeScript, and Next.js. Experienced in building high-performance, scalable web applications with clean, maintainable code and intuitive user experiences. Strong problem-solver and fast learner who thrives in collaborative teams and cross-functional environments.

EXPERIENCE

Front end Developer

Travelshift   September 2021 - Present，Reykjavik, Iceland

- Developed key features for Travelshift's marketplaces, building scalable solutions and improving existing functionality using React, Next.js, and TypeScript.
- Collaborated closely with designers and product owners to refine UI/UX, aligning implementation with business goals and user needs.
- Optimized Core Web Vitals by reducing load times, and applying SEO best practices, boosting Lighthouse scores and search rankings.
- Led front-end development of a high-impact information funnel for articles on European destinations & attractions, improving content discoverability and increasing user engagement.

Web Developer & Co-Owner

Visteyri   March 2021 - March 2022，Reykjavik, Iceland

- Led the development of a peer-to-peer e-commerce platform, owning both the technical architecture and implementation.
- Built core functionality including product registration, categorization, user listing flows, and marketplace logic tailored for a peer-to-peer experience.
- Gained hands-on experience driving early-stage development decisions, balancing technical priorities with speed to market.
- Transitioned out of the role to focus on long-term professional opportunities in software development.

Web Developer

RVK Marketing   July 2021 - September 2021，Reykjavík, Iceland

- Built custom websites for small businesses with responsive, modern UI.
- Implemented SEO best practices to improve visibility and performance.
- Collaborated with clients to understand their needs and deliver tailored web solutions on tight timelines.
